The origin of Babula dates from the 15th of October 1937, the day which the main character of this story was born: Estela, Leo's grandmother, founder of this project. He wanted to pay tribute to the woman of his life, Babula, as he lovingly calls her.

Babula is a tribute to all the grandmothers in the world. That special and unique love we want to share between these walls. Babula is your home and everybody's home.

Every single bottle that is opened here, every moment that is lived is made to be memorable and we want you to keep that in mind.
